TEAM MOVIE NIGHT AT DR. ROBINSON'S!

Thanks to Dr. Robinson and his wife Michelle for hosting a super fun team event in their backyard. Every team member, spouses and children, were invited to relax, enjoy lots of delicious food and a movie projected on a big backyard wall. The peach and vanilla Jolly Rancher cotton candy was a hit along with pizza and all the other goodies. Thanks to our great team for the fun night!

7 Year Anniversary!

We recently celebrated 7 years of working together with our wonderful financial coordinator Kristin. She is an expert at understanding and answering dental insurance questions. She loves to help people work their dental needs and wants into their budget. Kristin does so much for our patients and our team and we'd like to thank her for everything she does. We look forward to the next 7 years!

RECIPE OF THE MONTH

My Grandma Clark was a gourmet cook. Back in 1999 just prior to her passing, my wife Jannie and I visited her. My Grandpa slipped us an old shoe box, packed full of her treasured recipes collected over her lifetime. Jannie and I spent the next 3 years creating a huge 357 page recipe book in her honor.

There are now more than 535 books in print! We decided to share some recipes with you as "Grandma's Recipe of the month" Enjoy! -Dr. Taylor and Jayson

Chili con Campbell's

| 1/2 c. chopped onion | 1 can (1 lb.) kidney beans |
| 2T chili powder | 1 T vinegar |
| 1 large clove garlic, minced | 1/4 t. salt |
| 1 can (10 3/4 oz) Campbell's Tomato Soup | |

In saucepan, brown beef with onion, chili powder, and garlic. Cook until onion is tender. Add remaining ingredients. Simmer uncovered for 15 minutes, stirring occasionally. For spicier chili, add more chili powder. Makes 4 servings.

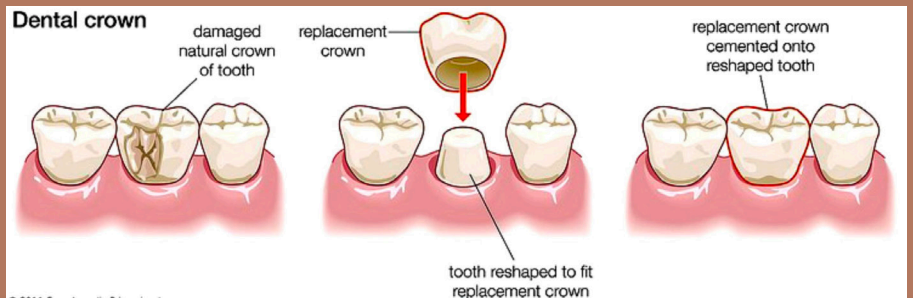

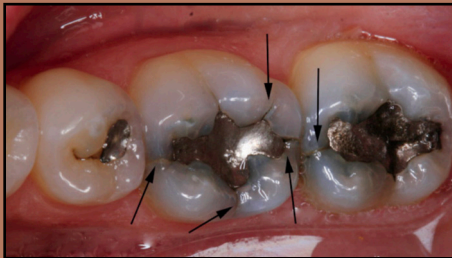

WHAT HAPPENS IN YOUR DENTAL OFFICE ON SATURDAYS?

Did you know? We teach women and men how to become amazing dental assistants! Our graduates are successfully working in dental offices throughout the state! In September, we held the graduation for our summer class of 16 students pictured here. They received a big standing ovation from the crowd of loved ones that came to celebrate their success. We are currently enrolling for our winter term that starts in January with only a few spots left. Call 208-938-8228 today to secure your spot or visit AssistoSucceed.com for more information.

What is a Cracked Tooth?

A cracked tooth is one of the most common causes of tooth loss or need of root canal therapy. The best time to treat a cracked tooth is before it hurts. How do you know if your tooth is cracked? If you bite down and feel any shooting pain upon opening, you may have a deep crack. If you have any old silver metal-mercury fillings, you may have cracks. Metal expands and contracts with hot and cold foods. This process can start a crack that often spreads over time like a rock chip in a windshield. Teeth with very large fillings of any kind are more likely to crack. Our goal is to identify serious cracks before they spread to the nerve or down the root of the tooth. Full coverage protection with a dental crown is the best way to stop a crack from spreading any further and avoid root canals.

A Dream Smile for Laurie!
We love what we do... making life better for people, one smile at a time. This just happened recently for a very grateful woman who fought back tears as she looked in the mirror at her new smile for the first time. During the evening care call by our doctor, Laurie expressed, "You folks just gave me my smile for the first time in my life! I've never really been able to smile until now. I feel no pain and one of my friends already noticed my smile. I told her about your office so you may be seeing her too!"
