Brian Halle and his son, Spencer's, big accomplishment!

Brian and Spencer have been working for several months on becoming ham radio operators. In December they both passed the test with flying colors.

There are just a few people that take the time to get this license. This allows people to do many things, particularly help organization efforts during times of emergency, disaster and terrorism.

People can also provide back country communication for scouting troops and be able to create goodwill by connecting with other ham radio operators all over the world.

TRIVIA Challenge

How many teeth do adults normally get?

Think you know the answer? Call the office now and tell us your number! The first 5 winners can pick up a delicious Butter Braid Pastry or a batch of gourmet cookie dough!

We have decided to share a special recipe with you every week on our website. Simply visit www.allaboutyourdental.com each week for a brand new recipe.

My Grandma Clark was a gourmet cook. Back in 1999 just prior to her passing, my wife Jannie and I visited her. My Grandpa slipped us an old shoe box, packed full of her treasured recipes collected over her lifetime. Jannie and I spent the next 3 years creating a huge 357 page recipe book in her honor. There are now 535 books in print! I decided to share some recipes with you each month as "Grandma's Recipe of the Month".
Enjoy, -Dr. Taylor

Double Chocolate Meringues

2 egg whites	12 oz. pkg. semisweet chocolate chips
1/2 Cup Sugar	1/2 light corn syrup
1/4 C. Finely chopped filberts	1/4 Cup milk
2 Tbls butter or margarine	Chocolate ice cream

Beat egg whites to soft peaks. Gradually add sugar, beating until very stiff peaks form and sugar dissolves. Cover baking sheet with foil. Draw six 3 1/2 -inch circles on foil; divide meringue among the circles. Shape with spoon to form shells. Sprinkle filberts atop. Bake at 275 degrees for 1 hour. Cool. Prepare chocolate sauce by melting chocolate pieces and butter over low heat (in a saucepan). Gradually stir in corn syrup and milk; stir until mixture is smooth. Cook and stir 10 minutes. Remove from heat; cool. Serve warm or cold.

What are Dental Sealants?

Dental sealants are a great way to protect your child's permanent teeth from cavities. Dental sealants are a clear, protective coating that is applied to the biting surfaces of the back teeth. The sealant protects the tooth from getting a cavity by shielding against bacteria and plaque. Sealants are most commonly placed on children's permanent back teeth because they are more prone to cavities. The average child gets their 1st permanent molar around the age of 6. At your next dental appointment, please feel free to ask about this service that can protect your child's teeth as well as yours.

Hope House. . . is a home to come to!

Making a Christmas Come True

Everyone at All About You Dental came together as a team and sponsored four adolescents to make Christmas possible for them. These young adults live at Hope House Home for Children in Marsing, ID. Hope House Home for Children began with a promise made by a little girl — herself abandoned and a victim of abuse, neglect and family dysfunction — who vowed that someday, she would make a home where children like herself could be loved and cared for. If you would like to make a donation to this non-profit organization, go to their website at www.ahome2come2.com!

Best Dental Office
in the Treasure Valley

Amazing!

I have been coming here since I was 2 and a half. I was a preemie so my mommy was extra worried about my teeth. Brian and the dentists here are so patient and take great care of me. Plus my mommy works a tough schedule and they are always great at scheduling. I love it here and I will keep coming and I recommend this office on the playground all the time. — Austin P.

Love All About You Dental

Every time I go in the staff are very friendly. The hygienist does a great job. They explain things very well. All About You Dental is the best. — Jeff H.
