## Dr. Clark's Recipe of the Month

My Grandma Clark was a gourmet cook. Back in 1999 just prior to her passing, my wife, Jannie, and I visited her. My Grandpa slipped us an old shoe box packed full of her treasured recipes collected over her lifetime. Jannie and I spent the next 3 years creating a huge 357 page recipe book in her honor. There are now 535 books in print! I've decided to share a recipe with you each month.

### Pumpkin Ice Cream Pie

- 1 baked 9-inch pie shell
- 1 quart vanilla ice cream
- 1 cup canned pumpkin
- 3/4 cup sugar
- 1/2 teaspoon salt
- 3/4 teaspoon pumpkin pie spice
- 1 cup heavy cream, whipped

Spread softened ice cream into pie shell. Put into freezer and freeze until firm. Mix together pumpkin, sugar and spices. Fold whipped cream into pumpkin mix. Spoon mixture over ice cream and return to freezer. Thaw a few minutes before serving.

## What are Dental Sealants?

Dental sealants are a great way to protect your child's permanent teeth from cavities. Dental sealants are a clear, protective coating that is applied to the biting surfaces of the back teeth. The sealant protects the tooth from getting a cavity by shielding against bacteria and plaque. Sealants are most commonly placed on children's permanent back teeth because they are more prone to cavities. The average child gets their 1st permanent molar around the age of 6. At your next dental appointment, please feel free to ask about this service that can protect your child's teeth as well as yours.
